

## Satellite/Satellite Pro U200

Ultra-portable notebook for everyone.

### Ultra-portable "all-in-one" notebook for everyday use

- This 2-spindle ultra-portable comes in a sleek, light design **weighing just 1.86 kg** and provides up to 5 hours of independent use
- Choice of new Intel® Centrino® mobile technology to succeed on the move, featuring either an Intel® Core™ Duo or Intel® Core™ Solo processor
- Improved mobile performance courtesy of high-capacity, high-speed Serial ATA hard disk drives and support for up to 4 GB of DDR2 667 MHz Dual Channel memory

### Keep your data secure and protected

- Includes Toshiba's Shock Protection Design with **Magnesium Casework** for improved durability and greater protection of critical system components
- Shock absorption, **HDD Protection** and Toshiba's own **3-axis motion monitoring system** reduce the risk of hard disk drive damage and data loss due to shock, vibration or being dropped
- Fingerprint reader** provides convenient one-touch fingerprint password authentication for all system passwords (BIOS, HDD and Windows)

- Spill-resistant keyboard allows ample time for users to save their work and shut down the system in the event of a spill

### Ultimate multimedia experience and enhanced productivity

- Superb **12.1" WXGA TFT widescreen display** enables users to view work-related content on a larger viewable area as well as enjoy DVDs in all their widescreen glory
- Benefit from greater brightness with the **Toshiba TruBrite® display**
- SRS® TruSurround XT™ and WOW HD™** virtual surround sound effects ensure a wider and more dynamic sound stage

### Enjoy DVD at your fingertips and archive data on DVD

- Integrated DVD Super Multi (Double Layer) drive** for up to 8.5 GB of data storage, multimedia recording and playback of CDs and DVDs
- Dedicated Multimedia Bar with Easy Keys enables convenient one-touch CD/DVD/MP3 player control

### Easy connectivity for every environment

- Integrated Wireless LAN 802.11a/b/g, V.92 modem, Ethernet LAN and Bluetooth® version 2.0 with EDR on selected models
- Mobile working is simplified thanks to **Toshiba ConfigFree™** for seamless LAN, WLAN and WWAN connectivity
- Toshiba Summit** software boosts productivity through efficient wireless conferencing functionality, including file sharing and chat
- Integrated microphone, stereo speakers and audio-out – ideal for VoIP calls
- The **Toshiba Wireless Key Log-on** function offers the added convenience and security of automatic password authentication via a Bluetooth® phone (on selected models)

Dealer stamp:

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Customer Support. • Graphics memory: The amount of memory available for graphics depends on the system configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PC's configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wireless and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may require several hours to recharge after being fully discharged. After discharging the battery, loss of charge is permanent at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • SRS® TruSurround XT™ is only available for WinDVD applications. SRS® WOW™ is only available for Windows Media Player 10. • Stamps: Windows interface. Please note that the system may not support all the features mentioned. • Microsoft® Office OneNote™ 2003 is not available in all countries. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis.
